

Video Math Challenge Voting Procedure

February 14, 2018

Our honors 8th grade algebra class (with some help from the reg 8th grade & honors 7th grade) is participating in the Mathcounts Video Math Challenge. They created math videos that have been uploaded to the Mathcounts video site. From February 13 until March 14, the public may vote for their favorite video. **We are asking you to register and vote for your favorite video** (hopefully it will be one of our students). We are trying to receive enough votes to be in the top 100 videos. Those videos will then be judged by the Mathcounts committee for the top 4. Those 4 groups will travel to Washington for the final judging.

Procedure for voting:

- <http://videochallenge.mathcounts.org>
- Click on **Register** on the top bar
- In the first box: **Voting Account Registration**: click here to create an account
- Once you have an account, you click on videos on the top bar.
- On the right, there is a box **Search Videos**; type in the title of the videos and click go
- **Our videos are:**
 - Greased: Melissa G, Anna K, Alex L & Rachel P
 - The Sock Shop: Rebecca K, Ellie S, Mary P, Emma B
 - Director's Logic: Cari N, Nora J, Anna N, & Lauren P
 - Time Will Tell: Julia S, Franny W, Megan G & Mia D
- Watch the video and vote
- You may vote every 24 hours. You may vote for more than one video but remember, it is the highest count of votes that will be measured.

Thank you for your help.

Dr. Rickert & the Honors Algebra Class
